LATEST EDUCATIONAL INFORMATION ON TRAINING COURSES, DISTANCE LEARNING, COMPANY TRAINING DAYS, SEMINARS, AND WORKSHOPS CURRENTLY AVAILABLE. THIS SECTION WILL ALSO INCLUDE COMPETITIONS, AND STUDENT OFFERS AMONG OTHER EXCITING OPPORTUNITIES

NCGE award for Ashok Wadwani

Ashok Wadwani, President of Applied Field Data Systems (left of picture), was the recipient of the President's award at this year's annual conference of the US-based National Council for Geographic Education (NCGE).

The award was presented to Wadwani for advancing geospatial technologies in education and society around the world.

According to Joseph Kerski, President, NCGE (right of picture), "Ashok is a rare individual who cares about people and is passionate about geospatial education and he goes above and beyond to hire students as interns and train them in this technology to serve various markets."

ACADEMIC GEOGRAPHERS HEAD FOR LONDON

As we went to press, delegates from across the world were converging on London for the Annual International Conference of the Royal Geographical Society (with IBG)... Europe's biggest gathering of academic geographers featuring more than 1,200 speakers and 300 sessions.

This year's conference, themed The Geographical Imagination, promised presentations on drought and food security, localism and the 'Big Society', energy consumption and carbon emissions, as well as climate change, health and UK welfare.

Conference chair, Professor Stephen Daniels, says there has never been a more important time for geographers to connect with their creative heritage and engage new audiences with the important role of geography. "We're working in troubling times, environmentally as well as economically, and a geographer's ability to envision the world, its physical and cultural processes, and its potential for change, has never been more important to wider society,"

GIS247 ULTIMATE LICENCES GAIN VIRTUAL TRAINING

Since its launch, GIS247 has delivered professional training on-demand to thousands of ArcGIS and MapInfo users.

Most of our customers enjoy our most cost-effective licence, originally titled an 'Unlimited' licence to provide an unlimited number of users at an organisation with unlimited access to all of our training material and courses. We have recently renamed the 'Unlimited' licence to be called an 'Ultimate' licence, in recognition that this licence provides the ultimate in terms of quality, range and access to training material.

In early 2012, the 'Ultimate' licence will be further enhanced with the additional benefit of Live Virtual Training. Instructor-Led Virtual

Training courses will be made available to all 'Ultimate' licenced users, enhancing their training experience with live demonstrations and accompanied by downloadable data & exercises. Live question & answer sessions will follow-on from each ILVT course.

For the ultimate training experience and ultimate return on investment, please visit www.GIS247.com and read about our new 'Ultimate' licence.
